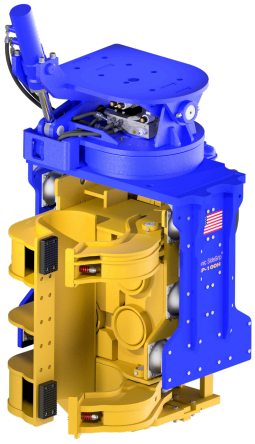
2-YEAR WARRANTY ON ALL MODELS

The Sonic SideGrip®

These vibratory pile drivers are excavator-mounted attachments with articulating side grips that speed up the pile driving process on any job site. The Sonic SideGrip® uses an excavator's hydraulics to safely and quickly pick up, unload, place, drive, and extract piling.

They are designed to overcome obstacles like low overhead clearance and narrow passageways, as well as eliminate the need for peripheral equipment used in the piling operation.



COMMON FEATURES

- ✓ 1.5" Bottom Plate
- ✓ Modular Fixed Jaw
- ✓ Adjustable Flow Control-Tilt & Rotate
- ✓ Steel Manifold
- ✓ 4" Elastomers
